Seizures

* Mercury/Autism comparison symptoms taken from: Autism: A Novel Form of Mercury Poisoning, 2000

"Mercury is a potent neurotoxin harmful to fetuses' and infants' nervous systems. . . Mercury has been linked to developmental disabilities such as autism." - **Senator John F. Kerry (D-MA)**

"Numerous scientists have testified and presented credible, peer-reviewed research studies that indicated a direct link between the exposure of mercury, a widely known neurotoxin, and the increasing incidences of autism." - **Congressman Dan Burton (R-IN)**

"Mounting evidence suggests that Thimerosal, a mercury-based preservative in children's vaccines, may be responsible for the exponential growth of autism and other childhood neurological disorders now epidemic in the United States." - **Robert F. Kennedy, Jr.**

"Mercury is a neurotoxin. And, in the 1990s children - infants and unborn children - were exposed to significant amounts of mercury at the most critical point of their development."
- **Congressman Dave Weldon, M.D. (R-FL)**

The links between mercury exposure and our autism epidemic can no longer be ignored. Review the evidence for yourself in a new book, Evidence of Harm, by journalist David Kirby. www.evidenceofharm.com.

"Kirby makes the unassailable point that American health agencies lagged in calculating the amount of mercury being injected into babies."
- **The New York Times**

"Big Pharma's fortunes are tethered in part to the Amazon.com sales rank of Evidence of Harm."
- **Financial Times**

Thousands of children are reversing the symptoms of autism by having the mercury removed from their bodies through detoxification under the care of a properly-trained physician. To find out more about this recent, life-changing news, visit www.generationrescue.org. Generation Rescue was founded for parents by parents. We are dedicated to empowering parents with the truth to help their children heal.
